FYI

David,

Here is an update on EtO at TCEQ. TCEQ plans to post the final Decision Support Document (DSD) on their revised state ethylene oxide effects screening level (ESL) on their website Friday. Their number has not changed from the value in the document they posted on their website in mid-February: <https://www.tceq.texas.gov/toxicology/ethylene-oxide>

The posting will include the final decision support document, the peer reviewers' comments and the TCEQ response to the peer review comments. TCEQ is considering doing a press release with the posting, but has not yet decided they will do so.
